- Run real ear and test box verification measures as part of best practice guidelines in hearing aid fittings.

Hearing Life • New London, New Hampshire • November 2023 to October 2024

- Perform adult diagnostic hearing evaluations.
- Work with Phonak, Starkey, Resound and Oticon in management of hearing loss in adults.
- Run real ear and test box verification measures as part of best practice guidelines in hearing aid fittings.

Dartmouth-Hitchcock Memorial Hospital • Lebanon, New Hampshire • September 2020 to Present

- Perform adult diagnostic evaluations including audiologic and electrophysiological testing.
- Work with Phonak, Starkey, Resound and Oticon in management of hearing loss in adults.
- Run real ear and test box verification measures as part of best practice guidelines in hearing aid fittings.
- Perform vestibular assessments, including oculomotor testing, positional and caloric subtests using Otometrics iCs software.
- Participate in multidisciplinary meetings regarding complex vertigo case management.

Veterans Affairs Medical Center • Boston, MA • May 2019 to May 2020

Clinical Externship

- Performed adult diagnostic evaluations including audiologic evaluations and electrophysiologic testing.
- Worked with all major hearing aid manufacturers and has gained proficiency in programming software of Starkey, Resound, Signia, Phonak, and Oticon.
- Performed hearing aid fittings and hearing aid check appointments via telehealth.
- Executed diagnostic vestibular evaluations using posturography and videonystagmography.
- Gained counseling skills, critical thinking, time management, and training in tinnitus, vestibular and aural rehab.
- Lead the weekly Progressive Tinnitus Management workshops.
- Counseled patients on how to manage tinnitus reactions with use of sound plans.
- Provided hearing aid services including evaluations, fittings, and adjustments for new and experienced users.
- Participated on a multidisciplinary geriatric specialty team to approach cases with a holistic view of the patient.

Pediatric Audiology • Dewitt, NY • January 2019 to May 2019

Hear 2 Learn Audiology

- Collaborated in pediatric diagnostic evaluations using tympanometry, distorted product otoacoustic emissions (DPOAEs), visual reinforcement and conditioned play audiometry, and electrophysiologic testing.
- Facilitated the hearing aid fittings of children ranging in age from 4 months to 15-years-old.
- Used real-ear to coupler differences (RECD) and speech mapping to analyze verification measures of hearing aids.

Veteran's Affairs Hospital Audiology • Syracuse, NY • August 2018 to December 2018

Audiology

- Performed comprehensive audiologic evaluations and completed hearing aid consultations and deliveries for first time hearing aid users as well as patient equipment upgrades.
- Executed tests and analyzed findings of videonystagmography evaluations.

Oviatt Hearing & Balance • Camillus, NY • May 2018 to August 2018

Private Practice Audiology

- Performed hearing screenings and comprehensive diagnostic hearing evaluations on adult patients to diagnose and manage hearing loss according to individualized treatment plans.
- Independently managed clinic walk-in-hours, including cleaning and troubleshooting hearing aids without patient interaction for quick and efficient service.

Bassett Medical Center • Cooperstown, NY • January 2018 to May 2018

ENT/Hospital-Based Audiology

- Performed comprehensive audiologic evaluations and observed otolaryngology diagnosis and management to participate in effective collaborative treatment and care of pediatric and adult patients.
- Completed initial hearing screenings and re-screenings on newborns using distortion product otoacoustic emissions (DPOAE) and provided counseling to families.
- Collaborated with mapping adjustments of experienced cochlear implant users and observed counseling for continued improvement of processor use.
- Observed cochlear implant surgeries in the operating room.

Onondaga-Cortland-Madison Counties BOCES • Syracuse, NY • September 2017 to December 2017

Educational Audiology

- Introduced teachers and staff about assistive listening devices for children with hearing loss and central auditory processing disorders (CAPD).
- Attended team meetings to review the progress of a child identified with hearing loss or CAPD who is receiving accommodations.

The Gebbie Hearing Clinic • Syracuse, NY • August 2016 to May 2018

University Clinic Audiology

- Executed comprehensive audiological evaluations of pediatric and adult patients under the supervision of an ASHA certified Audiologist.
- Completed central auditory processing disorder evaluations via the Buffalo Model for interpretation.
- Diagnosed audiological evaluations of children who failed the newborn hearing screening with Auditory Brainstem Response (ABR), OAEs, and tympanometry.
- Counseled patients on selection, maintenance, and benefit of hearing aids.

Professional Experience

Hear 2 Learn • Dewitt, NY • May 2018 to May 2019

Administrative Assistant

- Finalized multidisciplinary reports for the committee for preschool special education (CPSE).
- Sent the final reports to school districts and families to receive information on their child's evaluation and professional recommendation.

Additional employment as a Caregiver and a Self-Direction Coach.

Education

Doctorate of Audiology, Syracuse University, Syracuse New York, May 2020

Bachelor of Science, Education in Communication Sciences and Disorders, minor in Spanish, The College of Saint Rose, Albany, New York, 2016, Magna Cum Laude

Community Outreach

Volunteer Graduate Student Clinician -- Performed hearing screenings on community members and counseled individuals on the results of their screening and appropriate follow-up.

Volunteer, Listening Ears At Play (LEAP) Program -- Worked with a staff of teachers of the deaf and hard of hearing to educate a group of preschoolers with hearing loss.
